

# Where to start a career in **construction...**

## Graduate

- Construction
- Surveying
- Marketing
- Health & Safety
- Human Resources
- Procurement
- Design

Training in highly specialised and/or management positions with close mentoring links.

## Undergraduate

- Quantity Surveying
- Construction Management
- Building Studies
- Site Management
- Design

Attend full-time or part-time on our sponsored undergraduate scheme, receiving financial support and invaluable hands-on experience.

## NVQ, HNC, HND

Continue studying at NVQ levels 2 & 3 and beyond

Attend day release or block release in technical or craft occupations. Opportunities to further your studies are available, offering practical experience to reinforce your learning.

## Work Experience & Paid Industrial Placements

A number of departments offer students a chance to undertake work experience whilst at school or at university studying towards a degree. Work experience is invaluable in assessing if this career path is right for you. It absolutely improves your employability once your studies are completed.

## Part Time Apprenticeships

Start an apprenticeship and study day release for NVQ Level 1,2 & 3 in your chosen field.
